

[PHASE 2.2] 3 Week Demo Course

You have the wonderful opportunity to use technology in hastening the Lord's work of teaching repentance and baptizing converts. Using a smartphone as a missionary is meant to help you accomplish your missionary purpose. Your purpose should guide you to use technology in creative, inspired ways

As you consider how to use your smartphone as a missionary (e.g. whether you should use a particular app, etc.), consider the following questions:

Is the idea purpose-centered?

Will it help someone live the gospel?

Does it allow me to follow

- the [Safeguards for Using Technology](#) principles,
- the [Mobile Device Standards](#), and
- the [Missionary Standards for Disciples of Jesus Christ](#)?
