## What is TRC?

### Teaching Resource Center (TRC)

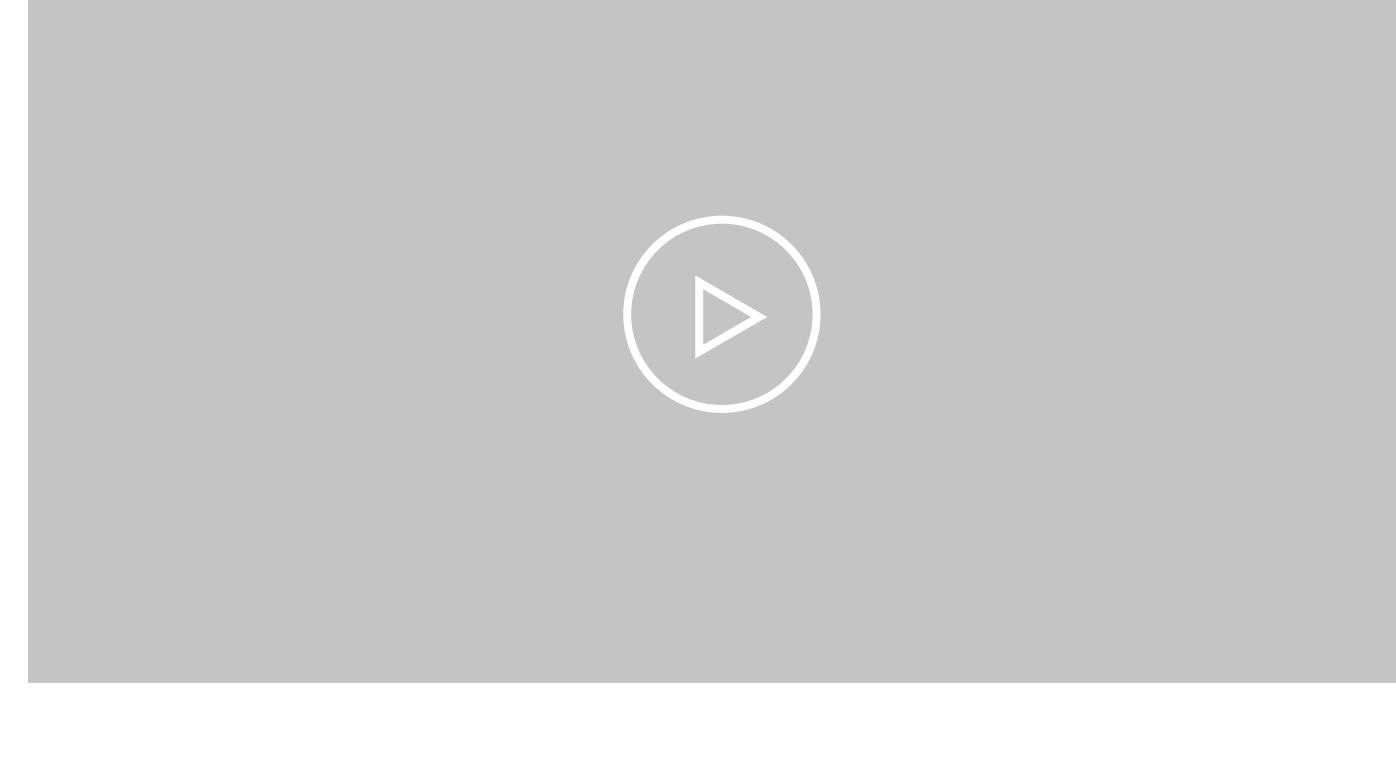

As a missionary in Online MTC, you will have many opportunities to teach others! The TRC (Teaching Resource Center) is an activity where you and your companion will connect with a person, via video conference, and have the chance to invite and help them closer to Christ through your teaching.

Watch the video below to find out about the Teaching Resource Center.

### How to Sign Up for the TRC

Watch the video below to find out how to sign up for the TRC. You will be using the same scheduling program that you used for scheduling your Workshops!

#### **What types of appointments are offered?**

Most (but not all) of the people you teach will be members who will be primarily portraying the role of a non-member. You may also have experiences where the member just acts as themselves. You will be informed as to whether it is a non-member or member scenario.

We offer appointments in almost all languages you might be trained in. We also offer appointments in English both for those learning a language and those who are not. If you are learning a language, you will have some appointments in English and some in your mission language. If you are serving in your native language, you will only have appointments in your native language.

#### **What Zoom link do I use for TRC?**

After you have booked a time for TRC below, you will receive a Zoom link for the person you will be teaching on the appointment confirmation page.

#### **When should I schedule my appointments?**

The schedule breakdown is determined by whether you are a 3, 6, or 9 week language. The charts below note the appointments that are required and the appointments that are encouraged. Please be aware, you and your companion can schedule as many appointments as you would like and as are helpful. Appointments made same day require two hours notice, so times during that two hour window will not be available to schedule.

**Important:** You need to make sure both you and your companion are available at the time you schedule your teaching appointments but only one missionary should create the appointment on the website.
